

TSB - FE01

Models applicable > Fendt 102 to 345 Farmer series

Details > with dual 250 or 260mm (Sachs) cover assemblies
Ag Clutch Part Numbers > 225 2501 FE and 226 2501 FE

CORRECT COVER IDENTIFICATION

To help identify the correct cover fitment in the above models, check the following mounting and flywheel information prior to fitment. These covers could be mistakenly installed in the wrong application.

Mix matching of these covers may cause release problems and or premature failure of clutch.

225 2501 FE = 250mm internal base plate diameter, the assembly spigots on the inside of the cover, the flywheel has a 2.0mm step (positive).

226 2501 FE = 260mm internal base plate diameter, the assembly spigots on the outside of the cover and the flywheel has no step (completely flat)
