

TSB - FE02

Models applicable >

Fendt 204 to 370 Farmer series

Details >

with dual 290mm (Sachs) cover assemblies

Ag Clutch Part Numbers > 229 2801 FE and 229 2802 FE

CORRECT COVER IDENTIFICATION

To help identify the correct cover fitment in the above models, check the following mounting and flywheel information before supplying. These covers can be mistakenly sold in the wrong application.

229 2801 FE = 38mm bolt fixing height, the assembly spigots on the inside of the cover, the flywheel has a 2.0mm step (positive)

229 2802 FE = 88mm bolt fixing height, the assembly spigots on the outside of the cover and the flywheel has no step (completely flat)
