

TSB-AGDZ04

In relation to AgClutch cover 228 2801 DZ

The new clutch cover design uses a vented type housing to improve cooling and heat dispersal. The new design clutch cover is fully interchangeable with the existing clutches with no modifications required to the vehicle or flywheel. New fixing bolt set (12 x M8x1.25x45mm) are supplied with the new cover design to accommodate the lower housing.
